**2002 SOOS SHOW
February 16-17
Civic Garden Centre**

PROGRAM: SATURDAY, August 11

THE THIRD ANNUAL SUMMER ORCHID FEST

Orchidfest is fast approaching. See you in the Floral Hall at the Civic Garden Center. Your admission is your orchid society membership and a favorite dish to share. Show proceeds have been earmarked to support this special event.

Schedule: **AOS Judging:** 9 am - 12 noon

This is a terrific chance to observe the monthly judging. Don't forget to bring those summer blooming orchid treasures to be judged.

Potluck lunch & BBQ: 12 noon - 2 pm

SOOS will provide hot dogs, hamburgers, and drinks. If you bring your own dishes we can help the environment too. Please bring a dish to share.

Sales: 12 noon - 2 pm and 4pm - 5 pm

You can also pick up preorders at this time.

Speakers: 2 pm - 4 pm

We are fortunate in having two famous orchid personalities from two world-renowned orchid emporiums as our featured speakers.

Paul Gripp was owner of Santa Barbara Orchid Estate for many years, even after retiring he can still be found offering advice to prospective customers. He is also a world traveler. Santa Barbara Orchid Estate located near the ocean in Santa Barbara, California, has for decades been considered the orchid Mecca for those enthusiasts thirsting for *Lycastes*, *Cymbidiums*, and a plethora of unusual species. Each summer the fantastically successful SANTA BARBARA ORCHID FAIR is held on its grounds with numerous invited vendors from all over the world. Paul has been an accredited judge for more years than he'll admit. In his travels all over the world he has led many orchid enthusiasts to new adventures with his incredible knowledge. Whether on the road or at the podium his dry wit entertains the audience. His topic: **LYCASTES**.

Norito Hasegawa, along with his partner, Harold Koopowitz have operated the firm Paphanatics unlimited in Anaheim California since the early 80's. They introduced the vinicolor and novelty Paphs to a very receptive orchid world. Their leading edge breeding in Paph multiflorals, roth. hybrids, and the new Chinese discoveries have captured the imagination of slipper aficionados. Norito has been an AOS judge for many years, and has exhibited and spoken all over the world. He is a regular at the Tokyo Dome Show. And he is no stranger to Canadian orchid shows. His topic: **NEW TRENDS IN PAPH BREEDING**.

A marvelous opportunity to hear and converse with the best. There will be plants for sale. But if you want something special, check out the web site for Santa Barbara Orchid Estate and the flask list for Paphanatics.

Future Programs:

Sept 9 Howard Ginsberg will entertain us with red *Phalaenopsis*
Oct 7 Francisco Miranda will take us on a journey through the Brazilian Amazon Jungle with orchids. He is the Canadian Orchid Congress speaker this year. Last year he toured Canada also. His plants and his talks were such a success that he is coming back again. This year we are fortunate enough to be able to fit him into our schedule. If you would like to order plants, see the attached list.

The **Toronto Judging Centre** monthly judgments are open to all orchid growers. You need not be a member of AOS or SOOS. You can bring your plants to the Civic Garden Centre before one o'clock on the designated Saturday of each month. Plants are judged for AOS awards in accordance with the Handbook on Judging and Exhibition. If your plant is awarded there is a US \$35 charge by the AOS. Non payment forfeits the right to future judging..

The Centre welcomes interested persons to come and observe the judging. There are opportunities to assist in plant research and administrative chores.

SOOS NEWS

CNE. On the whole orchid growers tend to be very proud of their successes. They love to show off how well they can bloom their plants. In the summer, when there are no Orchid Shows there is an opportunity to do just that. At the CNE there is an orchid competition. There is even an opportunity to do a small display if you are so inclined. Each ribbon comes with a monetary reward. Bring your treasures to show the public and reap the rewards. After entering your plants you can even enjoy your day at the CNE.

Plants are to be submitted and judged **SUNDAY, AUG 26**, and are to be left in place till **AUGUST 31**.

For more information you can contact Terry Kennedy (905 727-3319) or ourtropics@ica.net or Paula Hill at the CNE (416 263-3835). Terry will have entry forms at the Orchid Fest.

Show Committee. The committee recommends that vendors be invited on the basis of their level of support of our show, SOOS and the orchid world in general. A ranking list has been prepared on the basis of past performance, grading exhibits, sales material, and participation in SOOS as well as other societies. Invitations to sell will include a first, second, third, and fourth choice of vending location, and actual space will be assigned on the basis of the order in which applications are received or in case of a tie the ranking list. These proposals will be put to the next executive meeting.

The next meeting of the Show Committee will be at the home of Inge and Peter Poot on Wednesday, September 12 at 7 pm.

SOOS REPS. Your society is associated with a number of regional orchid organisations that meet in various parts of North America necessitating travel and hotel stays as well as conference registration fees for the individuals that are appointed by the executive to represent us. These conferences are a valuable source of connections and information for SOOS and also allow us to join with others in furthering orchid world objectives in conservation, education, and research. Up until now we have generally relied on the individuals that are our official reps to pay their own way to these conferences. Your executive has decided that partial funding by SOOS is appropriate provided that the rep provides SOOS with a written report on the conference for publication to the membership, and provided the executive approve the expenditure before the event. Current reps are: AOS, Gerda Ferrington; EOC, Inge Poot; MAOC, Gerda Ferrington; COC, Peter Poot. Your executive reviews these appointments from time to time and

may substitute when a given rep cannot attend a conference.
