

SOOS – A History of Supporting Conservation

Each year, when possible, SOOS makes a donation to a conservation project from the proceeds of our annual Show and Sale in February.

In April 2024, SOOS was awarded the AOS (American Orchid Society) Conservation Recognition Award in honour of the conservation and education projects that SOOS has supported.

The article below, *Southern Ontario Orchid Society Conservation Efforts* written by John Alexander, the current chair of the Conservation Committee, appeared in the AOS bulletin *Orchids*, in September 2024.

The article is posted below with permissions.

There is one error in the article. SOOS began in 1965, not 1964 as mentioned in the article. The author assumes responsibility for any other errors or omissions.
